Our results are made possible by about 4.500 highly skilled employees. Scientific excellence that achieves new standards of care drives our work. A dedication backed up by more than 30% of revenues invested in R&D.*

# Nordic Product Manager Fampridine

## About the job

Launch – Neurology – Possibilities for the Future. The overall task of the Nordic Product Manager is to be the Fampridine Product Champion and lead the marketing of Fampridine in the Nordic. This is done by supporting the countries with strategy and tactics to develop Fampridine to a Blockbuster product.

As Nordic Product Manager for Fampridine treatment in Multiple Sclerosis (MS) you will be an important person in our sales- and marketing team when launching new or further developed biotech products within the treatment of MS. You will drive your support to our sales- and marketing teams from your base in our Copenhagen office. Much of the activities will be project related and take place with our customers and you must expect to spend time out in the field and extensive travel activity.

## About you

We are looking for a person with at least 3 years experience from a pharmaceutical company as product manager after training as pharmaceutical consultant. Your background is science or economics. The job demands you are able to think “out of the box” while working structured. You must enjoy challenges and show determination in a dynamic environment. As you will work in a matrix organization you must be open-minded and positive and good at communicating. We expect the right person to know how to combine professional scientific expertise with marketing and sales. You must be fluent in spoken and written English our company language, and your IT skills are also at a high level.

## About us

We can offer you a position in one of the most expansive and interesting companies in the Nordic countries, where the professional scientific level and increase of competences are highly prioritized. As product manager you will get the possibilities for development and a career within biotechnological pharmaceutical industry at a very high level. You will report directly to our Nordic Marketing Director in Copenhagen.

Biogen Idec offers an open and dynamic culture where initiatives and creativity are expected and drive and dedication are embedded.

With us every employee are equally important and has the possibility to influence our success.

We invest a lot of time and resources in our employees. Furthermore you will experience a lot of freedom connected to responsibility.

## Interested?
